CURRICULUM VITAE

Prof. BECKENDAHL

Wetland Specialist, Hydrological Specialist, Rehabilitation Specialist

Dr Beckendahl holds a BSc(Hons), an MSc and H.Dip.Ed from the University of the Witwatersrand, and a PhD from the University of Natal and is qualified in both Geology and Geography (Geomorphology), and a professor in the School of Agricultural, Earth and Environmental Sciences at the Pietermaritzburg Campus of the University of KwaZulu-Natal. He has full accreditation with the SA Council of Natural Science Professionals (SACNASP) and is registered in South Africa as a professional natural scientist (PrSciNat). His current research interests focus on furthering soil conservation, combating and rehabilitating soil erosion, and on aspects of applied geomorphology, in particular wetland and riparian zone protection.
