CURRICULUM VITAE

MR GRAHAM SODEN

ACADEMIC QUALIFICATION

NHDip Tech T4 – Coal Mining Engineering
Consulting Mining Engineer

Graham has in excess of 30 years of experience in the mining and related sectors. He worked his way up the ladder in the formal mining sector through Anglo Coal and Sasol, and after identifying an opportunity he formed his own company specializing in taking projects through Greenfields to production, During this period he became a mine owner and gained vast experience at this level;

When the mine was sold, Graham joined the formal consulting sector as a Principal Mining Engineer and headed up the Coal Mining division of a Global Lead Consulting firm as a Competent Person signatory. He then focused on a Mega Mine project in Mozambique for a London listed entity and project managed this to a Definitive Feasibility level.

Graham brings vast experience and expertise to the minerals sector because of the fact that he has been part of the formal sector, has owned his own operations and has consulted to the sector as well.
