

Afzelia
ENVIRONMENTAL CONSULTANTS

CURRICULUM VITAE

BRETT REIMERS

Msc Applied Marine Science - UCT
Aquatic and Wetland Consultant

Brett has more than three years of specialist consulting experience in aquatic and wetland ecology. He graduated from the University of Cape Town in 2012 with his masters in Applied Marine Science. He attained his undergraduate BSc degree in Life and Environmental Science, specifically Zoology and Botany, with his honours in Zoology.

He has worked throughout Africa in places as varied as Mali, Liberia, Democratic Republic of Congo, Botswana and Malawi. Most of Brett's career has been conducted in environmental services relating to mining, energy and infrastructure. He has interests in Earth System Science and Environmental Engineering, more specifically in the application of artificial wetlands to improve degraded water quality.

He is a registered SACNASP scientist and South African Scoring System version 5 accredited.
